GENERAL FEATURES

SOUNDPROOF

28.6dB - Class B - ISO 23351-1

MOOD Meet integrates seamlessly near workstations, preserving privacy while effectively minimising speech noise across the workspace.

LIGHTNING

Balanced and efficient

4000 K colour temperature, CRI > 90, 2500 lm, with up to 500 lux on the work surface.

VENTILATION

Quite and smooth

Airflow reaches up to 476 m³/h. After use, the pod automatically refreshes the air, completing the cycle in under 1 minute.

PRESENCE SENSOR

Active infrared PIR sensor, designed to detect occupancy with high accuracy and sensitivity.

TOUCHSCREEN PANEL

Allows easy control of lighting intensity and ventilation through an intuitive and elegant interface.
